SOHAM KULE

Web Developer

sohamkule18@gmail.com 9167850630 Kalyan, India in/soham-kule-188062346

PROFILE

Frontend Developer with a strong foundation in React.js, JavaScript, HTML, CSS, and modern frontend development. Passionate about building responsive, accessible, and high-performance web applications. Experienced in developing AI-powered software, full-stack web applications, and interactive user interfaces. Looking to contribute to a product-driven engineering team while continuously learning modern web technologies.

TECHNICAL SKILLS

- Strong Communication Skills
- Programming Skills: Python, Java
- Web Development: HTML5, CSS3, JavaScript , React.js, Vite.
- Database Management: MySQL, SQLite, AstraDB
- Tools: Git, GIthub, VS code
- Languages: English, Hindi, Marathi

PROJECT

Productivity Workspace Dashboard
• Developed a modern productivity dashboard featuring task management, notes, reminders, calendar integration, and responsive user interfaces using modern frontend technologies.
• Implemented reusable UI components, responsive layouts, interactive dashboards, and clean component-based architecture while improving frontend development and state management skills.

Healthcare App
- Developed a user-friendly healthcare application using Android Studio, focused on enhancing accessibility to basic health services.
- Strengthened skills in Android development, UI design, and Java- based application logic.

Smart Document Q&A System using RAG and Gemini AI
- Designed and deployed an enterprise-grade RAG web application that enables secure, multi-tenant document uploads and multilingual natural language querying.
- Integrated advanced AI agent workflows using vector databases (Astra DB) and vision models to seamlessly extract, chunk, and summarize text, charts, and data from complex PDFs and Excel files.
